

AAMRO AVIATION NEWSLETTER

SECOND EDITION - APRIL 2025

BOOK A DISCOVERY FLIGHT: MAKE YOUR AVIATION DREAMS COME TRUE!

Have you ever dreamed of piloting an aircraft? Turn that childhood dream into reality with our Discovery Flight experience! For a full 60 minutes, you'll soar above West Palm Beach and its stunning coastline, enjoying breathtaking aerial views of the Jupiter Inlet, The Breakers, PGA National, and Roger Dean Stadium.

Your adventure begins with a brief introduction from an FAA Certified Flight Instructor. Then, you'll board one of our meticulously maintained aircraft—either a Cessna 172S or Piper Archer TX—for an unforgettable journey. Once safely airborne, YOU will take control of the aircraft! With your instructor's guidance, you'll maintain altitude, execute gentle turns, and experience the thrill of piloting firsthand.

Flexible scheduling available:

Choose your preferred time, including our popular sunset slots where you can witness the magnificent golden hour from above!

**slots are subjected to availability*

Perfect gift option:

Book a Discovery Flight for yourself or surprise a loved one with this extraordinary experience.

We are also available on Groupon:

Call our office today to schedule your Discovery Flight and take the first step toward your aviation adventure!

SUCCESS STORIES: CELEBRATING OUR LATEST ACHIEVEMENTS

At Aamro Aviation, we celebrate the remarkable achievements of our students as they clear their checkrides this month.

COMMERCIAL MULTI

Congratulations to Diego on passing his Commercial Multi checkride! His exceptional skills and preparation have earned him this achievement.

COMMERCIAL MULTI

Congratulations to Will Hulligan on achieving his Commercial Multi rating! His outstanding situational awareness and proficiency showcase the strength of our multi-engine program.

CERTIFIED FLIGHT INSTRUCTOR

Congratulations to Alex on passing his CFI checkride! This achievement launches Alex's career as an instructor, ready to inspire the next generation of pilots.

PRIVATE PILOT

Congratulations to Jacob on becoming Aamro Aviation's newest Private Pilot! His excellent airmanship and knowledge have earned him this foundational achievement.

INSTRUMENT RATING

Congratulations to Brian on successfully passing his IFR checkride! His precision and decision-making skills shined throughout the evaluation.

INSTRUMENT RATING

Congratulations to Cam VanNatta on passing his IFR checkride! His mastery of instrument procedures and weather interpretation has earned him this valuable rating.

SUCCESS STORIES:

Congratulations to Oliver on completing his first solo flight! This milestone marks a major step in his aviation journey.

Congratulations to Bryan on achieving his first solo flight! His developing skills and dedication have earned his instructor's trust.

Congratulations to Rylan on completing his first solo flight! He joins the proud ranks of pilots who have taken command of an aircraft on their own.

STUDENT TESTIMONIALS

”

"A beautiful place full of beautiful people. I've been to more than a few flight schools and Aamro remains my #1 choice for training and renting. When it comes to aircraft, instructors, and quality - Aamro is top tier!"

- Alyssa

”

"Aamro Aviation is a fun yet professional flight school that helped me achieve my private pilot license. All the staff are great and have your best interest in mind. Also, the prices are pretty reasonable. I always recommend them to anyone that needs a flight school!"

- Alex

FLEET FEATURE

PIPER ARCHER FLEET SPOTLIGHT

The Archer isn't just a plane — it's a classroom in the sky, preparing our students for the skies of tomorrow

Earlier this year, Aamro Aviation expanded its training fleet with five new Piper Archer aircraft. Here's why this exceptional aircraft continues to be a cornerstone of our program:

Advanced Technology: Equipped with Garmin G1000 NXi avionics, providing students with cutting-edge situational awareness tools	Reliable Performance: Powered by a 180-horsepower Lycoming engine with a cruise speed of 128 knots and range exceeding 500 nautical miles	Reliable Performance: Powered by a 180-horsepower Lycoming engine with a cruise speed of 128 knots and range exceeding 500 nautical miles	Airline Pathway: Modern cockpit environment mirroring today's airline technology standards
--	---	---	--

These outstanding aircraft enhance our ability to deliver world-class training while maintaining Aamro Aviation's commitment to safety, reliability and excellence.

NEW: REDBIRD SIMULATOR FOR MULTI-ENGINE TRAINING

We're pleased to announce an exciting addition to our training fleet: our Redbird simulator now features Tecnam P2006T configuration with Garmin G1000 and S-Tec 55 Autopilot!

This significant upgrade offers perfect replication by precisely simulating Tecnam P2006T performance characteristics and systems behavior, while accurately reproducing various real-world conditions including weather phenomena, turbulence, and emergency scenarios.

It serves as an ideal platform for building proficiency in multi-engine operations before transitioning to aircraft, providing cost-effective learning that maximizes training value while minimizing expenses and environmental impact.

The enhanced simulator provides students with invaluable experience in a controlled environment, allowing them to develop and refine their multi-engine skills with confidence.

COURSE SPOTLIGHT

FEATURED COURSE: PRIVATE PILOT LICENSE

Earn Your Wings in 8-12 Weeks

Our Private Pilot License program transforms aviation enthusiasts into certified pilots through comprehensive training:

Program Highlights	Eligibility
Duration: 8-12 weeks	Minimum age: 17 years
Ground Training: 30 hours of classroom instruction	Class 3 medical certificate required
Flight Training: 40 hours minimum flight time	English language proficiency
	Pass FAA knowledge and practical exams

What You'll Learn

Ground Training (30 hours):

Aircraft systems and aerodynamics
Aviation regulations and airspace
Weather theory and navigation
Flight planning and safety procedures

Ground Training (30 hours):

30 hours with instructor (including 3 hours night flying, 3 hours instrument, 3 hours cross-country)
10 hours solo experience (including 5 hours cross-country)

LOCATION UPDATE

NEW OFFICE AT KLNA AIRPORT

Earn Your Wings in 8-12 Weeks

Facility Highlights:

- Prime location at the beginning of KLNA airport
- Expanded space for student briefings
- Dedicated study areas
- Enhanced training environment
- Easier airport access

This strategic relocation allows us to provide a more comprehensive training experience while maintaining our commitment to excellence in aviation education. Students now have additional space for pre-flight preparation, post-flight debriefings, and independent study. Stop by our new location to see the improvements firsthand! Our staff would be happy to give you a tour of our upgraded facilities.

AAMRO AVIATION AT LYNN UNIVERSITY CAREER FAIR

Lynn Career Fair Expo 2025 - Aamro Aviation

Aamro Aviation recently participated in Lynn University's annual career fair for aviation program students. Our team joined industry leaders including JetBlue, Republic, and Caribbean Airlines to connect with talented future aviation professionals.

The event allowed us to:

Talent Outreach and Program Promotion:

Event allowed us to connect with bachelor's and master's candidates from various aviation disciplines while showcasing our comprehensive flight training programs and aircraft rental options.

Strategic Relationship Development:

We built relationships with students interested in flight instruction and professional pilot pathways, while strengthening connections with other aviation organizations and educational institutions.

The event was an excellent opportunity to engage with the next generation of aviation professionals.
