Director - Global Corporate Affairs

## CHARTING THE COURSE

Flying has always captured the imagination of humankind — the freedom to rise above the earth, explore the skies, and push the boundaries of what's possible. Today, that fascination is more relevant than ever. Around the world, demand for professional pilots is at historic highs, with airlines, charter operators, and business aviation all seeking skilled aviators to carry the industry into the future.

At Aamro Aviation, we are proud to play our part in shaping this next generation. Each student who walks through our doors carries a dream — and with the right training and support, that dream becomes reality.

Our commitment is simple: to provide young aviators with the safest environment, the most modern training aircraft, and the highest standards of instruction. Whether it's a first solo or a final checkride, we ensure every milestone is achieved with confidence and professionalism.

The journey to becoming a pilot is demanding, but it's also one of the most rewarding paths anyone can take. At Aamro Aviation, we're honored to guide our students on that journey — and to share in the incredible stories of passion, perseverance, and achievement that make flying truly unforgettable.

”

*Each student who walks through our doors carries a dream  
— and with the right training and support, that dream  
becomes reality.*

”

## SUCCESS STORIES: CELEBRATING OUR LATEST ACHIEVEMENTS

At Aamro Aviation, we celebrate the remarkable achievements of our students who successfully cleared their checkrides this month.

### COMMERCIAL MULTI-ENGINE

Congratulations to Christopher Werley on achieving his Commercial Multi-Engine checkride!

Congratulations to Kiefer Golshani on achieving his Commercial Multi-Engine checkride!

Congratulations to Noah on achieving his Commercial Multi-Engine checkride!

## COMMERCIAL PILOT

Congratulations to Nikola Pivic on passing his Commercial checkride!

## PRIVATE PILOT

Congratulations to Frank on earning his Private Pilot checkride!

Congratulations to Dominic Rademacher on earning his Private Pilot checkride!

Congratulations to Brody on earning his Private Pilot checkride!

Congratulations to Aamro's own Juan on earning his Private Pilot checkride!

## INSTRUMENT RATING

Congratulations to Jonathan Shumaker on earning his Instrument Rating checkride!

## FIRST SOLO ACHIEVEMENT

Congratulations to Christian Tourtilis on completing his first solo flight!

---

## TESTIMONIALS

”

*"Great school and staff, everyone is always friendly, accommodating, happy to help out when needed, and stay professional. I had a great experience with the testing center."*

**-- Oliver Taylor**

”

*"Great experience at Aamro West Palm F45 getting recurrent training for my private license. Friendly, skilled and supportive instructors, efficient staff and operations. Reasonable costs for GA flying. Very pleased."*

**--Tom Agoston**

## CREW CORNER

— Jeffrey Hernandez

### About the Author

Jeff Hernandez is proud to be working at Aamro as a desk agent while working on his commercial pilot certificate. He always loved airplanes since he was a kid, and his goal is to fly for a major airline in the future. Outside of the airport, Jeff is an emergency goaltender for the Florida Panthers of the NHL and loves to be on the ice with his friends.

I've had the privilege of working with Aamro for nearly 5 years. I started here as a student getting my instrument rating in March of 2021. It was a challenging experience, but I remember working so hard with Stefano. It was that hard work and determination that's helped lead me to my current position.

Shortly after getting the instrument rating completed, I started working as a Front Desk Agent. It was a full circle moment, working at a school where I had just trained. But doing so was very rewarding as I got to understand the business side of aviation that much more. I enjoyed getting to meet and interact with more of our flight instructors and students alike. I realized that this company is full of professionals, who truly thrive on student success.

However I kept moving forward and got my commercial license. And I didn't rest on my laurels because I was determined to be on the other side of the desk and was proud to earn my Certified Flight Instructor certificate in 2024. And in another full circle moment, I earned my Certified Flight Instructor Instrument certificate one year later. I am very proud to be teaching students now and helping them earn their instrument ratings, just like I did when I walked through those doors, so very long ago.

Working at Aamro has taught me a lot and I truly believe it's changed my life. I realized that aviation isn't an easy profession to be involved with, however it does become easier when you have a team that treats each other fairly and like a family. We've come a very long way since I joined the Aamro family, however I am excited that this is only the beginning.

**-It was that hard work and determination that's helped lead me to my current position.**

# COURSE SPOTLIGHT

## FEATURED COURSE: PART 141 FLIGHT TRAINING

### Fast-Track Your Aviation Career - Structured Path to Professional Flying

Part 141 flight training operates under strict FAA-approved curricula for efficient, standardized pilot education. This structured approach follows certified syllabi with mandatory stage checks and rigorous oversight, ideal for career-focused students seeking the fastest path to airline eligibility.

**The Game-Changer:** As an FAA-approved Part 141 school partnered with aviation degree programs like Liberty University's School of Aeronautics, Aamro Aviation graduates qualify for Restricted-ATP certification with just 1,000 hours instead of the standard 1,500. This 500-hour advantage dramatically accelerates your path from zero experience to regional airline eligibility.

#### Program Highlights

- Private Pilot License: 35 hours (vs. 40 hours Part 61)
- Structured Curriculum: FAA-approved syllabus with stage checks
- Career Benefits: Restricted-ATP eligibility at 1,000 hours

#### Eligibility

- Medical certificate from Aviation Medical Examiner
- English language proficiency

### What You'll Learn

Master systematic flight training through structured stages with consistent lesson objectives. Complete integrated ground and flight instruction designed for career advancement under rigorous oversight.

Our Part 141 program with aviation degree partnerships offers the fastest legal route to airline careers, cutting 500 hours off traditional ATP requirements.

## FROM STUDENT TO COLLEAGUES: A FULL CIRCLE FLIGHT

From training days at Aamro Aviation to flying side-by-side at the airlines — full circle moments are the best! Damian used to teach Nick how to fly with Aamro while Nick worked the front desk. Now they meet again for their four-day trip at Envoy on the Embraer 175!
