

# AAMRO AVIATION NEWSLETTER

TENTH EDITION : DECEMBER 2025

---

**Muralidharan Nair**  
CEO / Managing Director

## MESSAGE FROM CEO

My dear Aamro family member,

As we step into 2026, I want to thank every member of our Group for the dedication, discipline, and pride you bring to work each day. Whether your role is in logistics, aviation and training, or our dairies and farm-to-market operations, you are part of one shared story—one team building something meaningful, reliable, and respected.

Across our three entities, our work may look different on the surface, but our purpose remains the same: to serve with excellence and create real value. In our logistics and shipping businesses, we earn trust by delivering on time, solving problems quickly, and standing by customers when the pressure is highest. In our aviation entity, we shape futures by developing capability, confidence, and professionalism—where standards and safety are never negotiable. In our dairies and allied operations, we contribute to health and well-being through quality, care, and consistency—where integrity matters at every step.

A new year is not only a celebration—it is a commitment. In 2026, I want us to move forward with three clear intentions:

First, raise the standard across everything we do—quality, safety, compliance, customer experience, and accountability. Minor improvements, repeated daily, yield extraordinary results.

Second, strengthen our unity. We are one Group, and our most significant advantage is our support for one another—across departments, countries, sites, and time zones. Collaboration is not an add-on; it is how we win.

Third, build the future with courage and responsibility. We will embrace smarter ways of working, invest in our people, adopt technology where it genuinely helps, and grow sustainably—without compromising our values.

To every employee, leader, staff member, instructor, pilot, technician, driver, ground team, admin team, and support function—thank you. Your efforts are the foundation of our reputation. Your integrity is our long-term strength. And your belief in what we are building makes Aamro more than a business—it makes it a family.

*“ May 2026 bring you and your loved ones health, peace, and prosperity. Let’s make this year one of stronger execution, teamwork, and impact—together. ”*

## SUCCESS STORIES: CELEBRATING OUR LATEST ACHIEVEMENTS

At Aamro Aviation, we celebrate the remarkable achievements of our students who successfully cleared their checkrides this month.

### COMMERCIAL MULTI-ENGINE

Congratulations to Ariel Messam on passing her Commercial Multi-engine checkride!

### COMMERCIAL PILOT

Congratulations to Quentin Deines on passing his Commercial Pilot checkride!

## INSTRUMENT RATING

Congratulations to Oliver Taylor on passing his Instrument Rating checkride!

## CERTIFIED FLIGHT INSTRUCTOR INSTRUMENT

Congrats to Cole Bates on passing his CFII checkride today!

## PRIVATE PILOT

Congratulations to Alharbi Yahya Ibrahim on passing his Private Pilot checkride!

Congratulations to Jacob Novick on passing his Private Pilot checkride!

# TESTIMONIALS

“ I had an amazing experience at AAMRO! The instructors are very professional and supportive. Justin and Sean are absolutely fantastic — they make learning fun, easy to understand, and always ensure you feel confident and safe. I highly recommend AAMRO to anyone who wants quality flight training! ”

-- Faisal Alrefaei

“ Aamro instructors and community, everyone helps everyone get where they want to be. 10/10 recommend coming here to get your ratings! ”

-- Niko Bray

## CREW CORNER

**-Landon Sytsema**

Aviation has been part of my life for as long as I can remember. Growing up with my father who is an airline captain and spending countless hours in small aircraft with family friends, flying wasn't just an interest—it was a way of life that shaped everything that followed.

I took my first discovery flight in late 2020, and what had been a long-held dream quickly became reality. While still in high school, I earned my Private Pilot Certificate, laying the foundation for what would become my career. After graduation, I continued my training through Liberty University's affiliate flight school program, completing my bachelor's degree and earning my CFI certificate in mid-2025. I now hold both CFI and CFII ratings and am fully committed to helping students safely and confidently reach their aviation goals.

"The most rewarding part of instructing is watching students achieve the same milestones I once worked toward myself."

Seeing someone pass their checkride, regain confidence after time away from flying, or rediscover their passion for aviation brings

## About the Author

Landon Sytsema is a CFII at AAMRO Aviation who began flying in 2021 and earned his bachelor's degree in aeronautical science in early 2025. His aviation background includes working line service at his local airport, which gave him valuable perspective on both flight operations and the broader aviation environment. As an instructor, Landon is dedicated to inspiring aspiring pilots and helping them achieve their goals as safe, confident aviators in the world of aviation.

me tremendous satisfaction. I'm motivated by the opportunity to pass down the knowledge and mentorship I received from my own instructors to the next generation.

I grew up in central Michigan while my father was based in Detroit, and my family relocated to South Florida in 2014 seeking warmer weather and a change of pace. Outside the cockpit, I'm drawn to hands-on activities—fishing, diving, wakeboarding, and motor sports. I started riding dirt bikes at three years old and spent years racing motocross and woods events. While I've slowed racing in recent years to prioritize safety and longevity in aviation, that mechanical background continues to inform how I understand aircraft systems, risk management, and disciplined decision-making.

I'm proud to be part of AAMRO Aviation. The culture here is unmatched, the equipment is top-quality, and the camaraderie among staff is something special. I work alongside colleagues I genuinely consider close friends, and I look forward to helping students

**succeed in an environment that sets a high standard for both training and professionalism.**

## NEWS UPDATE

### Santa Upgrades His Sleigh

This year, Santa traded his reindeer for something a bit more reliable—a Cessna 172S. With clear skies over South Florida and a full schedule of holiday deliveries, even St. Nick knows the value of a dependable aircraft.

Our team was thrilled to welcome the jolly pilot to the ramp, proving once again that aviation brings people together—no matter how far they've traveled or how unconventional their usual mode of transport. Whether you're training for your first solo or making a quick stop between the North Pole and the next chimney, AAMRO Aviation is here to support every mission.

From all of us at AAMRO, we wish you a Merry Christmas and smooth flying into the New Year!

## CELEBRATING OUR DECEMBER BIRTHDAY CREW

This month we're celebrating our fantastic team member who made another trip around the sun! Join us in wishing a very happy birthday to:

**Jack Walter**

Here's to another year of excellence and dedication!

# AVIATION QUIZ

**From cockpit to clouds - let's see if you're ready to take flight!**

**1. What is the minimum visibility required for VFR flight in Class G airspace during the day below 1,200 feet AGL?**

- a) 1 statute mile
- b) 3 statute miles
- c) 5 statute miles
- d) Clear of clouds

**2. What does "V-speeds" refer to in aviation?**

- a) Vertical climb speeds
- b) Various performance speeds
- c) VFR approach speeds
- d) Velocity over ground measurements
