

AAMRO AVIATION NEWSLETTER

EDITION SEVENTEEN

FINDING YOUR VOICE ON THE RADIO

Every student pilot remembers the first time they had to key the mic. The engine is running, the checklist is done, and suddenly the radio feels louder than everything else in the cockpit. At Aamro Aviation, we see it every week, and we also see it turn into confidence faster than most students expect.

IT IS A PATTERN, NOT A PERFORMANCE

Most radio calls follow the same simple structure: who you are calling, who you are, where you are, and what you want. Once a student learns that pattern, the nerves start to fade. It stops feeling like a test and starts feeling like a conversation.

CONFIDENCE COMES ONE CALL AT A TIME

By the time students are ready to solo, the radio is just another checklist item, not an obstacle. If you are still working up to that first call, know that every pilot flying today once felt exactly the same way.

EVERY PILOT WAS NEW AT THIS ONCE

Nobody sounds smooth on their first radio call. Even experienced airline captains started with a shaky voice and a heavy thumb on the push-to-talk button. Radio communication is a skill like any other. It gets easier with repetition, not with natural talent.

PRACTICE BUILDS THE HABIT

At KLNA and F45, our instructors build radio practice into every lesson from day one. Students listen to live traffic, rehearse calls on the ground before engine start, and get real-time coaching in the air. Repetition does the work that worry cannot.

SUCCESS STORIES: CELEBRATING OUR LATEST ACHIEVEMENTS

At Aamro Aviation, we celebrate the remarkable achievements of our students who successfully cleared their check rides this month.

COMMERCIAL MULTI

Congratulations to Humberto Daniel Guerra Pinon on passing his Commercial Multi checkride!

MULTI ENGINE INSTRUCTOR INSTRUMENT RATING

Congratulations to Anthony Alderman on passing his Multi-Engine Instructor License!

Congratulations to Alex Meyst, on passing his Instrument Rating checkride!

COMMERCIAL PILOT

Congratulations to Andrew Carlson on passing his Commercial Pilot checkride!

Congratulations to Oliver Taylor on passing his Commercial Pilot checkride!

Congratulations to Reese Gallagher on passing his Commercial Pilot checkride!

Congratulations to Natalie Linford on passing her Commercial Pilot checkride!

PRIVATE PILOT

Congratulations to Cody Coleman on passing his Private Pilot checkride!

Congratulations to Jordan Aurilio on passing his Private Pilot checkride!

Congratulations to Kailyn Brenner on passing her Private Pilot checkride!

FIRST SOLO ACHIEVEMENT

Congratulations to Piper Imse on completing her first solo!

Congratulations to Tyler Roth on completing his first solo!

Congratulations to Chelsey Santos on completing her first solo!

Congratulations to Liam Thompson on completing his first solo!

TESTIMONIALS

“ *My boyfriend and I did a Discovery Flight and Joseph was our instructor. For a first time flying in a small plane, Joseph's instructions and detail-oriented approach really made the difference. Unforgettable experience, thanks to Joseph!* ”

-- Emily Ionescu

“ *Aamro has been amazing so far. I just got my commercial pilot license with them and plan to continue the rest of my training here. Asami was my instructor and she was amazing and I was honored to be her first checkride pass! Aamro is an awesome environment and the instructors and students are awesome as well. The Planes are very new and are amazing quality which is an issue I ran into with other schools. If you are looking for a flight school, this is a great place to do your training!* ”

--Caleb Crowder

CREW CORNER

Jason is a passionate flight instructor who loves helping students reach their aviation goals. He holds a business degree and stays active running marathons and playing pickleball. Flying lets him combine his love of learning with adventure, and he brings energy and dedication to everything he does.

Jason Agnisky

I'm a CFI/CFII/MEI at AAMRO, and it's been a rewarding stretch. I recently earned my Gold Seal, an FAA recognition for flight instructors who meet high standards and show proven instructional success, and I was selected as a Check Airman. So far, every student I've sent to a check ride has passed, which I credit to the effort they put in and the training culture here.

For me, it's really about helping students become strong, knowledgeable, confident pilots who are ready for the responsibility that comes with flying. I try to keep learning myself so I can keep passing that along.

Getting to do this work at AAMRO means a lot to me, and sharing a passion for aviation with students is the best part of the job.

Whether you're just starting flight training or working toward your next rating, I'd love to have you in the cockpit with me.

NEWS UPDATE:

A NEW PIPER ARCHER JOINS THE LANTANA FLEET

Aamro Aviation's Lantana location has welcomed a brand new Piper Archer TX to the training fleet, giving students another modern, well-equipped aircraft to build hours and sharpen their skills.

EXPANDING CAPACITY AT KLNA

The new Archer TX adds to a growing lineup of aircraft at Palm Beach County Park Airport, giving students more flexibility when scheduling lessons and easing wait times during busy training periods. Whether you are working toward your private pilot certificate or logging cross-country time for an advanced rating, the extra aircraft means more availability on the line.

THE LATEST AVIONICS, READY TO FLY

Like the rest of the Archer TX fleet, the newest addition comes equipped with the Garmin G1000 NXi glass cockpit, giving students hands-on experience with the same integrated flight displays used throughout modern general aviation. A freshly delivered aircraft also means clean, factory current instrumentation and a smoother experience from the very first lesson.

BOOK YOUR FLIGHT

Current and prospective students can start flying the new Archer TX right away. Call 561-660-7468 to check availability and schedule your next lesson, discovery flight, or checkride prep session. We are excited to see this aircraft join the training rotation for years to come.

CELEBRATING OUR JULY BIRTHDAY CREW

This month, we're celebrating our fantastic team members who made another trip around the sun! Join us in wishing a very happy birthday to:

Wallace Ferreira

Casey RG

Zachary Mason

Daniel Scarpellino

Here's to another year of excellence and dedication!

AVIATION QUIZ

From cockpit to clouds — let's see if you're ready to take flight!

1. What is the purpose of a readback when a pilot repeats an ATC instruction?

- a) To confirm the instruction was heard and understood correctly
- b) To practice speaking clearly
- c) To request a frequency change
- d) To notify other aircraft in the pattern

2. What is ATC asking a pilot to do when they say "squawk ident"?

- a) Press the ident button so the aircraft stands out on radar
- b) Change to a new transponder code
- c) Confirm their current altitude
- d) Switch to a new radio frequency

3. What is the standard emergency frequency monitored by ATC, often called guard?

- a) 118.0 MHz
- b) 121.5 MHz
- c) 123.45 MHz
- d) 135.65 MHz

4. When a pilot says "roger" on the radio, what are they communicating?

- a) That they agree with the instruction
- b) That they will comply immediately
- c) That the message was received and understood
- d) That they are changing frequencies

5. What should a pilot say if they did not understand a radio transmission?

- a) Standby
- b) Say again
- c) Wilco
- d) Over and out
